Pressing Tool ACO203XL

Time saving due to back stroke limitation.

As an all-round among the pressing tools, the ACO203XL can be used for all dimensions up to 108 mm. For applications, which do not need the entire stroke of 80 mm, the tool is equipped with a back stroke limitation in order to adapt the stroke to 40 mm and to save time when pressing smaller sizes up to 54 mm. Thanks to the compact design (only 3,2 kg and 46 cm length) and the rotatable head, the pressing unit is very easy to handle and even suitable for working overhead. Thanks to the new, implemented Bluetooth Technology, device-related data can be requested via the NovoCheck app.

NovoCheck App

- Data transfer between pressing tool and app
- Possibility to check the pressing tool's current status
- Analysis of the pressing tool performance
- Integrated report function for documentation of the installation

Accessories

- Press jaws 15, 22, 28, 35, 42, 54, 76.2, 88.9, 108 mm
- Press collars with adapter jaw
- Battery charger
- Milwaukee 5.0 Ah Battery (suits other Ah batteries)

Cases available for large adapter jaws

RapidPress Quality & Service

Tool Features

- Battery-empty-detection
- Error display
- Device information through the LED indication under the start button
- Automatic pressing cycle
